

# CIRCUITSPRINT

## ABOUT

Electronic circuits might have taken a long time to be invented but they certainly did not take a long time to make their presence felt in all walks of life. From small toys to state-of-the-art satellites, everything depends on electronic circuits.

'Circuitsprint' as the name suggests, is an event designed to test your mettle in the field of electrical and electronics. definitely a platform for all the circuit enthusiasts to exhibit their skills against the best of the best in this specialization. This is an on-spot event which gives you the opportunity to showcase your skills at designing and implementing electronic circuits.. All you require to do is to brush up your concepts and get ready to unleash your designing skills in the 'CIRCUITSPRINT' battlefield.

## EVENT DETAIL

### FIRST ROUND :

This is a Quiz round based on the fundamentals of electrical and electronic circuit.

Selected teams from this round will proceed to the next round.

### SECOND ROUND :

Herein the participants will be tested on their skills to recognize the Basic Component.

### THIRD ROUND :

The final round is all about designing a circuit based on the given problem statement. In this, the participants will have to race against time as they compete with one another to make the best possible circuit .The accuracy and approach in building the circuit is tested.

## Rules And Regulation:

1. There is no negative marking in Round 1. Here, evaluation is based on the number of questions answered correctly.
2. Round 3 is judged based on efficiency of the output and time taken to make the best possible circuit.
3. All elements required for the circuit designing will be provided by us.

**Exciting prize will be awarded to the winners.**
